EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

In paragraph [0015], line 2, the term "4" was deleted and replaced with -- 3-- to correct an obvious typographical error since Figure 4 is a diagram of the driving signal shown in Figure 3 (and not Figure 4, as currently set forth).

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest a printing method for printing a pixel having a gray level of x on paper with a thermal printer having all of the method steps as recited, in combination with and particularly including, heating the ribbon in the specific ways as recited depending upon whether x is greater than the value n, where x is the gray level of the pixel being printed and n represents a predetermined number of heating duration divisions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Leslie J. Evanisko** whose telephone number is **(571) 272-2161**. The examiner can normally be reached on M-Th 7:30 am-6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew H. Hirshfeld can be reached on (571) 272-2168. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
